SilverStone

RMS08 series

The Tool-less server slide is designed and built for 1U and 2U chassis. The bracket can be mounted on EIA rackmount - bracket with 5/8" pitch, suitable for square holes

www.silverstonetek.com

Installation:

Step 1 – Install the slide members to each side of the cabinet:
The inner member of the server slide needs to be taken out and assembled with chassis. The middle member / outer member is installed on the rackmount to be ready for Step 5.
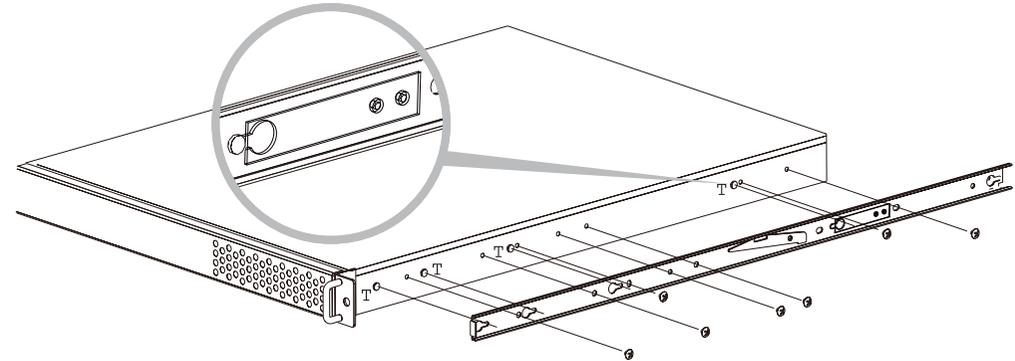

Step 2 – Remove the inner member:
Pull the inner member out to the locking point. Then press the trigger down as shown on the Figure-1, and fully pull out the inner member to facilitate the installation of chassis.
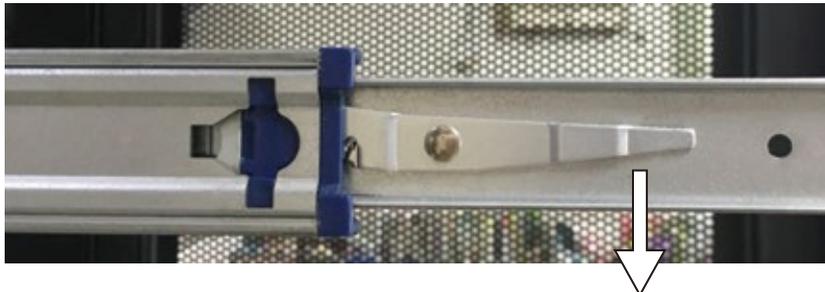

(Figure-1)

Step 3 – Mount the inner member to the chassis:
Assemble the inner members to the chassis with M4 screws from the screw kit.

Step 4 - Install the middle member / outer member on the rack mount:
Insert the middle member / outer member of the servers slide into the upper and lower square holes of the EIA rack mount from inside the cabinet.

◎ **Optional Step (but suggested):**
After the installation is finished, you may fix with a screw (M5x15) into the center on the cabinet hole.
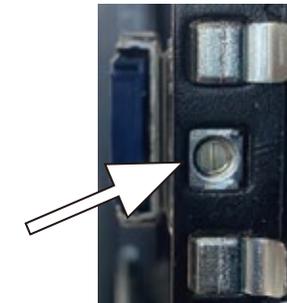

The rackmount ear pieces which are assembled to the chassis are suggested having a bottom hole in order to avoid restricting the function of the blue knob on the server slide.

Step 5 - Mount the chassis into the cabinet:

Insert the assembled chassis into the cabinet member as shown on the drawing below. It is important to check if the ball cage is in fully open position before install the chassis (Figure-2). It might cause catastrophic damage to the chassis if the ball cage is not in fully open position while mounting the chassis. While you are pushing chassis back to the cabinet, you need to release the slide from locking position by pressing the trigger down (Figure-3). A critical step is - Make sure the chassis is pushing to the utmost end and complete it as "Reset"

(Figure-2)

(Figure-3)

Dismount

Step 1 - Release the rail from the rackmount bracket:

Push the half-moon shape area to get easy release.

Warranty Information

This product has a limited 1 year warranty in North America and Australia.

For information on warranty periods in other regions, please contact your reseller or SilverStone authorized distributor.
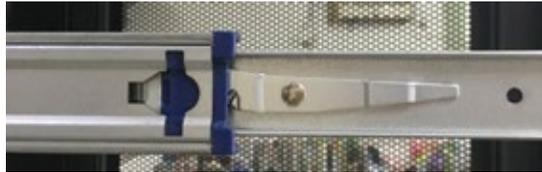

本产品自购买之日起，于中国地区（不包含澳门，香港特别行政区）享有一年有限责任保固（部分产品为二年，三年或五年）。详细保固年限请参照官方网站 www.silverstonetek .com.cn 公布之产品型号为依据。

Warranty terms & conditions

1. Product component defects or damages resulted from defective production is covered under warranty. Defects or damages with the following conditions will be fixed or replaced under SilverStone Technology's jurisdiction.
