* 2.5" drive on center bracket may be difficult or impossible to install due to power supply cable interference, we recommend using 140mm deep or shorter modular power supply with flat cables.
* Maximum length for power supply is 150mm but we recommend 140mm deep power supply due to varying connector locations and the unique structure of RVZ01-E.
* Due to the use of internal power cord extension, we recommend not to exceed 800W when powering off a 110V outlet (no limit for 220V).
